**The Original
Wellness Shoe.**

designed by nature. created by kalsø. 

It's a story that goes back more than 40 years.

Anne Kalsø, a Danish yoga master, made the insightful observation that the daily raising of the toes relative to the heels could actually help people attain a physical feeling of wellness like that achieved in the yoga position known as 'Mountain' pose. Inspired by the thought that wellness, in its most organic form, could be made part of an everyday experience, she set out to develop the very first Kalsø Earth® Shoe.

From those passionate beginnings now thrives an expansive collection of casual wellness footwear. Each and every one true to its roots as 'the original wellness shoe'.

Kalsø Earth® Shoes. Designed by Nature. Created by Kalsø.
